# Key Metrics

| 68% | 21% | $420,000 |
| --- | --- | --- |
| PILOT ADOPTION | SUPPORT TICKETS REDUCTION | ANNUALIZED SAVINGS |

## Proposed Risks

- To validate: engineer availability for the 8-week rollout.
- To validate: impact on projects that share those engineers.
- To validate: pilot feedback beyond the 68% adoption figure.

# Rollout Plan

Plan requires 3 engineers for 8 weeks.

- To validate: phase dates and an owner. The brief did not supply them.

## Approval Request

- Approve the Q4 rollout of Project Orion.
- Allocate 3 engineers for 8 weeks.
- Accept $420,000 annualized savings as the working business case.

# Next Steps

Decision requested: approve Project Orion's Q4 rollout.
